Comments/Recommendations: Enforcement since last FCE Yes No (If yes, attach summary)

I arrived on site at 2:35 PM to conduct an odor complaint inspection. Prior to arriving on site, I noted decomposing odors and occasional burning hair odors along Durham road and at a complainant's property. The odors were strong at times and came and went with the wind consistently for the 30 minutes that I was there. Winds were W at 11 mph and it was mostly sunny and 81°F. I noted the same odors upon arriving at the facility. I met with Ephraim Stoltzfus who said that the odors were due to the ~~house~~ heads not being picked up when they were supposed to from Holley at 6:00 AM this morning. I walked to

Compliance Status: In Out Pending Awaiting Co. Report Needs a Follow-Up Inspection? Yes No

the back of the facility and saw two trash bins with fat in them which were covered with plastic; I did not note odors from them. I noted very strong objectionable odors coming from the dumpsters full of heads and there were numerous flies in that area. There were also trash bins with remains in them and some remains on the ground. I then walked to the compost pile. I noted rendering odors from cow stomachs that had recently been put on the pile and were not yet covered; Mr. Stoltzfus stated they would be covered shortly with wood chips along with any remaining rendering from the day. At 2:55, the Holley dump truck came and picked up the two dumpsters and odors appeared to improve.
